- Used for adhesives, sealants, asphalt sample collection, crafts
- Shipped flat for convenience
- Self-locking design for easy set-up
- Withstands up to 400 degrees F
- Stocked sizes for immediate shipment

PACKAGING SOLUTIONS

QRS... Maybe we should have called it “The box you need when you have a sticky product”

The QRS box was originally designed to hold hot melt adhesives. Since then, our customers have found all sorts of new uses for this patented product from Dura-Fibre.

Asphalt sample collection, sealants, soap making and drip catch boxes are just some of the applications where QRS boxes are the perfect solution to challenging issues. The package is rigid and durable for shipment, and it's laminated paperboard construction makes it 100% recyclable.

When you're stuck trying to find a solution, consider QRS boxes from Dura-Fibre.

Patent # 4,148,429

OUTSTANDING BENEFITS:

- Product removes cleanly with no contamination
- Leak-proof design
- Ships flat (or erected for a nominal charge)
- Durable design for tough environments
- A variety of stock sizes to meet your needs
- Custom sizes and designs available
