

Locking Well Protector

The Emco Wheaton A0727-004 is a 4"x4"x5' well protector installed over monitoring wells for aboveground applications providing protection of all well screen and plug options. Available in steel or aluminum construction. The locking hinged lid is constructed of die cast aluminum with powdered coated corrosion-resistant finish. Custom lengths are available upon request.

**A0727-004S
Steel**

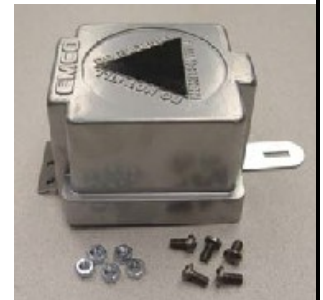

**A0727-004A
Aluminum**

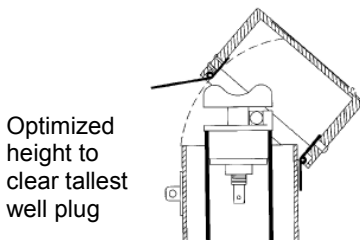

One piece die cast aluminum cap is powdered coated for corrosion resistance and painted with contrasting black triangle.
